For I tried to farm and all the players that ended this.

Why have they done this my whole entire life.

We started an orchard and when we went to the farmers market
we sold some of our Fruit etc..

**We witnessed people that could not afford this We gladly Gave our Harvest away to those in
Need.**

**There was no Farm program involved no Government program Subsidizing this
No Benefit from any Man made entity.**

**But we did receive a response from the local people in and out of Government
Including many attempts on my life and my Family's life.**

so for everybody that goes hungry with in my community

you can give credit to your neighbor's and State Government.
